1. Claims 31 and 32 are rejected under 35 U.S.C. 102(b) as being fully met by Harris et al., Miller or Bjelkhagen for the same reasons as set forth in paragraph 1 of the first office action filed 12-28-07. The instant claims include imaged security documents without any uv sensitive metal forming compounds remaining, e.g. the entire coated uv sensitive preparation may be converted to colloidal metal or the metal salts or metal acids and/or their polymer binders may be washed out leaving the colloidal metal. Therefor, the imaged elements of the instant claims include elements the same as the applied prior art.

2. Claim 33 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

3. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
